WHAT IS DISTANCE LEARNING?

Distance learning is a method of study in which course content, assignments, and communication are completed electronically. The expectation is that students will continue to progress in their learning during the closure of schools under the consultation and guidance of their teachers and the collaboration of parents/guardians.

COMMUNICATION

General school communication will be delivered via our social media accounts. We also encourage you to follow M-DCPS in order to receive up-to-date district-related information.
